EXPERIENCE

SportsHub Technologies | Minneapolis MN

Software Engineer - Contract Jul 2018 – Mar 2020

- Engineered components using **ReactJS**, **JSX** and **Styled-Components** to meet new feature requirements
- Utilized **GraphQL** and **Apollo client** to fetch, update and cache data
- Captured and implemented coding best practices to reduce complexity and improve readability
- Wrote and maintained **Jest**, **Storybook** and **StoryShots** tests
- Refactored components to use **functional components** and utilize **hooks**

SportsHub Technologies | Minneapolis MN

Internship Jun 2017 – Aug 2017

- Wrote 100+ Unit tests using **JavaScript's** native **.assert** library, which are still being used in production today
- Became proficient in using **GitHub** -creating/deleting branches, submitting PR's and resolving merge conflicts
- Performed QA tasks - passed/failed tickets in **Jira** based on acceptance criteria outlined in **Sympli**, created bug tickets, live data testing
- Experienced daily work flow using **agile** and **scrum** methodologies with one and two-week sprints

Ruthilee Inc | Austin TX - Remote

Service Desk Technician Oct 2013 – Jun 2015

- Provided support services for the VA's Mobile Health Provider Program
- Assisted clients with iPad and iPhone devices via phone and email
- Supported and resolved hardware and software issues
- Deployed, configured, and trained users on new devices at VA location

United States Marine Corps. | Camp Pendleton CA

Data Network Specialist Apr 2008 – Aug 2012

- Responsible for setting up mobile networks of 100 - 200 devices
- Troubleshoot and resolve network issues as they arise
- Supported Cisco hardware and Microsoft software
- Certified in **Sec+**, **A+** and completed **CCNA** modules **1,2,3**
